

# PROARGI-9+

Live life optimised with ProArgi9+, Synergy's premier health enhancement product.

Based on science that identified Nitric Oxide as a signalling molecule in the cardiovascular system and awarded the Nobel Prize of Medicine in 1998. The primary ingredient in ProArgi-9+ is L-arginine, a compound that produces Nitric Oxide in the body, causing vasodilation of blood vessels.

**Nitric Oxide influences the functioning of virtually every bodily organ.**

**ProArgi-9+ is the highest pharmaceutical grade L-arginine product in the market.**

**A great pre and post workout drink to increase blood flow preparing muscles, increases muscle endurance during a workout and helps speed muscle recovery post workout.**

**Nitric Oxide is a vasodilator assisting blood flow to every part of the body.**

**As we age, we lose the ability to naturally produce Nitric Oxide.**

## KEY INGREDIENTS

- L-arginine
- L-citrulline
- Vitamins C, D3, K, B6, B12
- Folic Acid

## RECOMMENDED USE

- Mix 1 sachet with 240ml of water
- Stir or shake to dissolve

Published on the Cologne List; ProArgi-9+ is safe for use by those in competitive sports

## BENEFITS

- L-Arginine produces Nitric Oxide within the body, which helps to vasodilate blood vessels, hence promotes blood circulation. It also has the ability to increase Human Growth Hormone production, which helps to maintain lean body mass whilst decreasing fat mass
- L-citrulline helps prolong the production of Nitric Oxide for longer periods
- Increased level of Nitric Oxide may help with cardiovascular health
- ProArgi9+ is being patented by Synergy for its success in reducing cardiovascular disease. Its unique combination of ingredients inhibits myeloperoxidase and helps reduce the oxidation of LDL cholesterol (bad cholesterol)
- Contains Vitamin C to support proper functioning of the nervous and immune systems
- Contains Vitamin K which supports bone health and blood coagulation
- Contains Vitamin B6, B12 and Folic Acid, which supports red blood cell formation and homocysteine metabolism

**90 Day Challenge - 100% money back guarantee, if after 90 days ProArgi-9+ doesn't make a difference to you.**

**Avoid use if:** within 6 weeks of myocardial infarction or if known to suffer with hypotension (low blood pressure).
